

Leaders in Impacting IT and HR Programs

MINORITY-OWNED 8(A) CERTIFIED COMPANY

PTG International, Inc. (PTG) is a leading Maryland small business providing organizational and business impact through IT and Human Resource solutions and services to Federal, State, and commercial agencies. For over 25 years, we've provided automated solutions with our service professionals who thrive when challenged.

PTG enables our clients to maximize their IT and Human Resource investments by:

- **Measuring program alignment to mission-critical goals.** Evaluation of IT and HR resources assures investments and program initiatives meet and exceed agency expectations. As a MicroStrategy® partner, PTG's data analysts help agencies create visualizations to clearly identify a program's strengths and weaknesses in support of an organization's mission.
- **Providing good stewardship of IT and HR dollars.** Multilevel evaluation allows organizations under budget pressures to assess the value and impact of their programs and modify or eliminate marginally effective investments. Proper evaluation can mean lowering areas of risk, such as injury, security breaches, and ultimately mission failure.
- **Empowering our greatest resource - our people - the PTG Family!** Our clients trust us because we trust our people. PTG empowers and invests in its employees – professionals who strive to serve through the impact they make.
